

Harrison & Lear Unveils New Property Management Software

HAMPTON, VIRGINIA, JAN. 1, 2010 - Harrison & Lear announced today that Rent Manager, which provides an integrated property management system for Multifamily, Single Family and Commercial, was selected for automated, efficient collection of lease and revenues and for managing our maintenance responsibilities.

"In considering the requirements for managing our leases, we saw Rent Manager as a system that could handle our portfolio, maintenance, and tenants." said Mike Kwiatek, Senior Property Manager for Harrison & Lear. "Along with ensuring revenue collection in a timely manner, Rent Manager provides visibility, and accountability, into our finances that wasn't possible with our previous Windows® - based system."
